

## Specifications

MODEL	SOFT X-RAY CHARGER
Ion Generation Method	Soft X-ray
Dimension	Charger Unit : 120×120×40 mm Controller : 200×160×40 mm
Power consumptions	20 W [MAX]
Anode Voltage	9.5 kVDC
Anode Current	150 μA
Cooling method	Natural Cooling
Weight	Charger Unit : 1.00 kg Controller : 0.78 kg
Input Voltage	100~230 V (Alternating Current), 50~65 Hz
Warranty	5,000 hr or 1 year

## Applications

- Particle charging
- Aerosol research
- Calibration of Aerosol Instrument

A substitute of radioisotope  
for safer and easier use

# Soft X-ray Charger

## Features and Benefits

- Neutralization on aerosol particles
- Increase measurement efficiency
